Reasons For Allowance

1. Claims 13-16,18-19 and 30-33 (renumbered as 1-10) are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of Suzuki (U.S. 6,697,567) provides for an encoding rate controller for controlling the encoding rate of an encoder (Fig.4 element 24), the encoding rate controller comprising a control circuit (Fig.4 element 24) configured to perform a first encoding rate control process for a first portion of a signal supplied to the encoder (Fig.5 element R11, col.9 lines 52-59) and a second, different encoding rate control process for a second, different portion of the signal (Fig.5 element R12, col.9 lines 60-67). **The prior art of Suzuki failed to teach or suggest for an encoding rate controller, wherein the first encoding rate control process calculates an average encoding rate based on encoding rates at a plurality of times, determines whether the calculated average encoding rate is greater than an upper value or less than a lower value and controls the encoding rate based on the determination, and the second encoding rate control process calculates an average encoding rate based on encoding rates at a plurality of times, determines into which of two or more rate ranges the calculated average rate falls and controls the encoding rate based on the determination as cited in independent claims 15,18 and 32.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
